

Aluminum quarter turn cover enclosures

- Quick Features :**
- Poured gasket
 - ¼ turn lock
 - Drip shield
 - Seamless welding
 - Panel is included
 - Panel is double bent
 - Powder coated

The 5412 EALQT water, oil & dust tight enclosures are used indoors or outdoors in areas where a corrosion problem exists or where the enclosures may be subject to hosing or to water coming from any direction or for protection against dust, dirt or oil splashing. The 5412 EALQT are made from quality 0.080" (Type 5052 H -32), with corner seems continuously welded. The opening has a curled lip around all sides to prevent dripping water

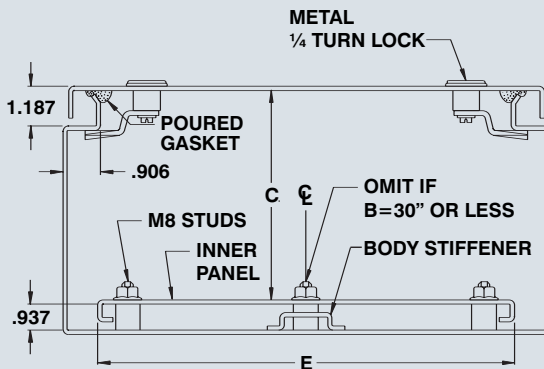

from entering the enclosure when the cover has been removed, it also increases rigidity. A high quality robotically poured-in-place seamless gasket ensures a complete and durable water tight seal. Quarter turn locking mechanisms on all sides insure positive closing. Internal mounting holes are provided. Body stiffeners are provided on larger models. Each enclosure comes **complete with a 12 GA inner panel** which is

double bent* for maximum rigidity and which mounts on M8 welded studs. Enclosures and panels are finished with heat fused polyester powder, electrostatically applied on a phosphatized base. Box is ANSI/ASA 61 grey, panel is white (other colors available). **CSA Certified / UL Listed NEMA 4X / IP66**
