

## Right flange mounted disconnect multi-door enclosure

### Quick

#### Features :

- Seamless welding
- Poured gasket
- Padlock handles
- Drip shield
- Superior hinging
- 180° door opening
- Panel is included
- Panel is double bent
- Powder coated

The 9500 UxD oil and dust tight right flange mounted safety disconnect enclosures are used indoors for protection against dirt, dust, oil and water splashing. One, two or three door combinations are available. The 9500 UxD are made from quality 11 GA steel with all seams continuously welded. Most center posts can be removed (refer to drawings) to facilitate the installation of the inner panel. The ball bearing hinges of the concealed die cast

hinges can be easily pulled out to remove the doors. Three point automotive padlockable handles ensure positive closing on all doors.

The new latching rod system interlocks with the disconnect handle and eliminates the need to purchase an adaptor. A door interlock is installed to ensure that the left hand door(s) (slave) can only be opened if the right hand door (master) is open and the disconnect switch is powered

off. Door and body stiffeners are provided on larger models. **Each enclosure comes complete with 10 GA inner panel(s)** which mount on M10 welded studs. A print pocket is provided. Enclosures and panels are finished with heat fused polyester powder, electrostatically applied on a phosphatized base. Box is ANSI/ASA 61 gray, panel is white. **CSA Certified / UL Listed NEMA 12-13 / IP65**

**If the 9500 UxD is to be used with a flange mounted disconnect switch or a circuit breaker, the following items must be ordered:**

#### Ordering an Allen-Bradley 1494V Disconnect switch

- an operating mechanism with the disconnect switch 1494V
- an operating handle 1494V-H1
- a connecting rod 1494V-RA1 if the enclosure is 8" deep or 1494V-RA2 if the enclosure is 12" deep
- if required, a trailer fuse block kit 1494V, a fuse clip and line and load connectors.

#### Circuit breaker

- a Westinghouse or General Electric circuit breaker.
- an operating mechanism 1494V
- an operating handle 1494V-H11
- a connecting rod 1494V-RA1 if the enclosure is 8" deep or 1494V-RA2 if the enclosure is 12" deep

#### Ordering a Cutler Hammer Disconnect switch catalog C361

- an operating mechanism with the disconnect switch
- an operating handle (C361-H2 or H4)

#### Circuit breaker operators catalog C371

- a Cutler hammer or Westinghouse circuit breaker
- an operating mechanism
- an operating handle

#### Ordering a Square D Class 9422 Disconnect switch

- an operating mechanism with the disconnect switch class 9422
- an operating mechanism handle class 9422 Type A-1

#### Circuit breaker

- a Square D circuit breaker
- an operating mechanism class 9422
- an operating mechanism handle class 9422 Type A-1

#### Ordering a General Electric Disconnect Switches

- a disconnect switch QMR or QMW
- a fuse clip kit if required
- a TDAI flange handle
- an operating mechanism, variable depth

#### Circuit breakers

- a circuit breaker
- a TDAI flange handle
- an operating handle 1494V-H11
- an operating mechanism, variable depth

#### Ordering an Asea Brown Boveri Disconnect switches

- a switch flange operated fuse if required

- a DSFHS-12 shaft
- a DSFHN-HS12 handle

#### Circuit breaker

- a circuit breaker
- an operating mechanism
- a FHS-12 shaft
- a FHN-HS12 handle

#### Ordering an I-T-E Max-Flex™ Disconnect switch

- a basic right hand switch
- a fuse kit if required
- a handle FHOHS flange mounted
- an operator FHOSO6R
- a cable FHOECO36

#### Circuit breaker

- a circuit breaker
- a set of pressure wire connectors
- a handle FHOH flange mounted
- an operating mechanism
- a standard cable 36"

#### Ordering a Westinghouse

- a disconnect switch or circuit breaker type DS
- a yoke assembly and backplate
- a rod and brace assembly
- a pivot mechanism
- an operating handle

**Disconnect switches and operating mechanisms are not furnished with the enclosures.**
